A clear next step

Payment and background work have separate states. Your order shows what is saved and what is still processing.

Private by default

Opening a direct order address still checks the current customer. Another account receives an unavailable message.

REPRESENTATIVE ORDER STATES

Awaiting payment

Continue the existing order. A return address alone is not proof of payment.

Receipt processing

Payment is verified; the durable background job is still completing.

Receipt ready

Show the saved receipt total and a clear link to the owned order.
